## WILL FIGHT WITH CHINESE.

A Young Captain of Oregon National Guard to Enlist in Chinese Army.

Captain Harry H. Elkins of Troop A, Oregon National Guard, which is stationed at Lebanon, passed through the city Saturday on his way home to spend the holidays, says the Salem Journal.

Captain Elkins has spent the last few months in British Columbia, where he was called to attend to some mining business, and stopped in Portland on his way home on business connected with his commission as captain in the Chinese Imperial reform army.

Captain Elkins, although the youngest commissioned officer in the O. N. G., and is said to be the youngest man holding a captaincy in the United States, is considered one of the most efficient, and leaves a brilliant record behind him.

He has been in the service for five years, enlisting as a private, being appointed in turn corporal and sergeant, then being elected second lieutenant, first lieutenant and finally captain by his men. Captain Elkins has the distinction of being the only officer appointed from the state of Oregon to the war college at Fort Leavenworth in the year 1903. Unfortunately he was unable to accept the appointment on account of the intervention of business affairs that needed his immediate attention.

It is expected that the commissioned officers already selected for the Chinese army will be called into service some time in February, when they will embark for the Orient.

The question in regard to a man accepting a commission in this army and losing his country has been answered that he does not lose his country any more than a foreign instructor or does when he comes to the United States to teach in a college, and that these commissions are as instructors of the army, and not as citizens of China.

H. J. Nicholas, a boy of 19, was arrested in Spokane Wednesday for wholesale burglary. In his room were five canvas telescopes filled with jewelry and dry goods, stolen in recent raids.

"Your trouble, madam," said the physician, "seems to be due to an excess of adipose tissue." "My goodness!" exclaimed Mrs. Plumpton, "I wonder if that isn't what makes me so awfully fat!"

## YOUR CASE AND OSTEOPATHY.

You say, "I can see how Osteopathy can cure some things, but I do not see how it can help me."

As usual you have never thought of a cause for your trouble. With slight displacement of ligaments, muscles and bones, especially of the spine and ribs, with the nerve and blood supply disturbed thereby, any form of disease may result, depending on the nature of the interference.

The Osteopath can remove this cause in one disease as well as another. The cure then depends upon nature's power to repair the damage.

All curable diseases, acute and chronic, have been cured by Osteopathy. The following is a partial list in which marked success has been attained: Tonillitis, dyspepsia, constipation, diarrhoea, dysentery, appendicitis, ascites, gall stones, cystitis, enlarged prostate, "gravel," anaemia, goitre, dropsy, la grippe, croup, bronchitis, asthma, hay fever, pneumonia, pleurisy, malaria, typhoid and all fevers, measles, erysipelas, diphtheria, paralysis, epilepsy, neuralgia, sciatica, nervous prostration, eczema, St. Vitus dance, spinal curvature, impotency of men, milkleg, female diseases and rheumatism (in worst forms); many forms of heart disease, deafness, blindness, diabetes, Bright's disease, and consumption (except in far advanced cases).

Doctors Holmington, graduates under the founder, Dr. Still, will explain any point you wish. Call on them. Despair no more.
